

The 2016 season of the ARB Off Road Racing Series kicks off with the first round being held at Griffith, New South Wales on the weekend of March 18th – 20th.

"This series has become very popular with competitors and spectators due to the professionalism shown by event organisers and the quality of not only competitors but also race venues used" explained Jeff Newick, Customer Service Manager.

This year Mickey Thompson has partnered with ARB as key sponsors of the series. The number of competitors switching to Mickey Thompson Tires has increased due to the performance and reliability given by the Mickey Thompson product along with the fact that these tyres are off the shelf, used by many 4WD drivers around the country for everyday driving. Last year Matt Owen took out the series outright title running the Mickey Thompson MTZ's and with the release of the new MTZ P3 we expect even more competitors to switch over.

"We are very pleased to be involved in this series, we believe that this series is the pinnacle of Off Road Racing in Australia and this gives us the opportunity to put back into the sport that supports our products both on and off track. We are looking forward to a long partnership with ARB and competitors alike" added Jeff Newick.

Representatives from Mickey Thompson will be at every event this year showcasing our products and discussing them with all attendees, competitors and spectators, so make sure you get along to see some Australia's best off road racers and have a chat with the Team Mickey Thompson crew.
