

The Teagle Excavations ARB Pines Enduro 400 held on 23rd-25th September is one of the most popular events for off road racing competitors on the Australian Off Road Racing calendar and this year's event promises to produce some extremely close and exciting racing action.

The promoters of the event, The Millicent Sand Buggy Club, have always been leaders in new innovations and this year will see a new race format added to the popular Millicent meeting.

Competitors will get a chance to inspect the main forest race track on Friday afternoon before unloading their vehicles for scrutineering from 5pm and a public display continuing into the night.

The on track entertainment will commence at 10am Saturday the 24th September with the Hards Transport Prologue held at Teagle's Quarry right on the outskirts of Millicent. The one lap sprint around the 6km track will see buggies, trophy trucks and 4WD's flying over the natural terrain and manmade jumps that are all visible from the main arena. This area is a favourite of competitors and spectators and is second to none in Australia to witness all the thrills and spills of these amazing machines close up.

Pines Enduro Introduces Exciting New Format Change And Offers Racer Cash
